### **DETAILED ACTION**

- This action is responsive to the following communication: an Amendment filed on 4/11/07.
- Claims 1-11, 20-21, 23-24, 30-32, 35-36, and 38 have been canceled via authorized Examiner's Amendment dated 5/24/07; see Examiner's amendment for details.
- Claims 12-19, 22, 25-29, 33-34, and 37 are allowed; renumbered as claims 1-17.

### ***Response to Arguments***

Applicant's arguments, see pages 27-29, filed 4/11/07, with respect to independent claims 26, 33, 34, and 37 have been fully considered and are persuasive. The prior art rejection of claims 26, 33-34, and 37 has been withdrawn.

### ***Allowable Subject Matter***

- Claims 12-19, 22, 25-29, 33-34, and 37 are allowed; renumbered as claims 1-17.
- The following is an examiner's statement of reasons for allowance: The cited prior art (US 5815764 to Tomory) of record teaches an image processing apparatus with plurality of assigned bins, but the prior art of record fails to teach and/or suggest "a control means causes said image recording apparatus to execute the recording of the same page of the image data of the second-type job by the number of times corresponding to the number of members specified by the group-name information included in the second-type job, and cause to distribute the same recording result obtained by the recording to the plural storage units allocated to the plural members specified by the group-name information included in the second-type job, and an arbitrary character string abased on an operator's manual input using a user interface unit can previously be registered as the group-name information and in combinations of other features" as cited in independent claims 26, 33, and 34 (renumbered as claims 1, 13, and 15 respectively). The examiner found neither prior art cited in its entirety, nor based on the prior art, found any motivation to combine any of prior arts that teaches the above limitations and in combinations of other features cited in claims 26, 33, and 34 (renumbered as claims 1, 13, and 15 respectively).
